I train with some very cutting edge specialists in detoxification and PhD's in biochemistry on a consistent basis and have for the past 8 years...although I have been researching toxicology related issues for 18 years due to my son being born with neurological symptoms related by over exposure to fluoride I ingested while carrying him in utero.

Dr. Daniel Pompa, DC

www.drpompa.com/

Dr. Jack Tips, N.D., Ph.D. C.C.N., C.Hom.

www.jacktips.com/

Dr. Shayne Morris, PhD Biochemistry

www.systemicformulas.com/shayne-morris-phd

My favorite supplement companies are Systemic Formulas and Young Living...although I do use others on occasion. But, these are the two companies that I specifically train with on a consistent basis.

Debbie Brenner, B.S., P.H.C., Quantum Health Consulting, LLC

Certified Systemic Formulas Nutritional Clinician and IQS Practitioner

I use the Rule of the 5 R's of Cellular Healing in order to "Solve the Neurotoxic Puzzle" as certified and directed by Dr. Daniel Pompa, DC (www.drpompa.com) and Dr. Jack Tips, N.D., Ph.D. C.C.N., C.Hom. (www.jacktips.com), and Systemic Formulas. My mentors and trainers in cellular healing and detoxification.

1. Remove the Source (Systemic Formulas "New Model for Detoxification" Protocol coupled with Young Living Therapeutic Medical Grade Essential Oils). Address the cause of the presenting symptoms. These being: Pathogens (bacteria, virus, mold/fungus, parasites) ~~ Petrochemicals and Toxins (herbicides, pesticides, fungicides) ~~ Heavy Metals (mercury, lead, aluminum, arsenic, cadmium...and many, many more). Correct the DNA (if possible) from damage caused by these Neurotoxic Stressors.
2. Regenerate the Cell Membrane (ViSTA 1 & 2 Cell Membrane Regeneration and Omegagize). The Cell Membrane is the "BRAIN of the CELL" NOT the DNA...as many were taught in school.
3. Restore ATP Energy (HQ and/or eNRG Quantum ATP). The body cannot heal properly without enough power via the work horse of the cell called the Mitochondria.
4. Reduce Inflammation and Free Radical Damage of the NO/ONOO Cycle (EPIC/EVENTA/ROX)
5. Reestablish Methylation (MoRS). See "A Tale of Two Mice"

<http://www.pbs.org/wgbh/nova/body/epigenetic-mice.html>

Listen to the Nova study that was done on identical twin mice and how Methyl groups (CH₃) or Methylation turns genes on and off. Dr. Dana Dolinoy of Duke University explains the role that the epigenome, a sort of second genome, plays in regulating the expression of our genes. As Dolinoy notes, we can no longer say with certainty whether genetics or the environment have a greater impact on our health, because the two are inextricably linked through the epigenome.

Young Living 100% Therapeutic Medical Grade Essential Oils do 4 Major Things:

1. Clean cell receptor sites of toxins so the cell can send and receive proper information via hormones and take in nutrients and eliminate waste.
2. Cross the Blood Brain Barrier to affect the Amygdala (The Seat of Emotion).
3. Increase energetic frequency which gives the body the power to heal.
4. Reprogram the software of the cell with the correct energy and information directing the cell to work as God intended.

I want to explain a bit about the difference between herbs and homeopathic/essential oils and how they work with your body. Herbs are used to run the hardware of a computer....the computer being your cells. Homeopathic remedies and essential oils are the software that run the hardware.

What I mean by that is...homeopathic remedies and essential oils go into your body and actually "tell the cells energetically" to stop behaving this way and begin to behave in a different way....like the software in a computer system. They do this by imparting a higher frequency or energy pattern to the cell. The herbs come in behind that and actually nourish, feed and build up the cell to get it back into balance. So, the homeopathic/essential oils tell the cell how to behave and the herbs come in to shore up and stabilize the cell by adding nutrients.

What the Numbers Mean
Weakened = Ranges 0-44 (Chronic)
Balanced = Ranges 45-55 (Balance)
Stressed = Ranges 56-100 (Acute)

S.A.F.E. Stands for:
S = Survey Stress
A = Achieve Awareness
F = Find Focus
E = Enable Elimination
